

RESEARCH ANNOUNCEMENT

The Scottish Churches and the Coronavirus Pandemic

Brendan Research has been commissioned by Action of Churches Together in Scotland (ACTS), with the support of the Scottish Church Leaders Forum, to undertake a major piece of research into the Scottish Churches' response to the Coronavirus pandemic. This research will be used:

- To better understand the Churches' experience of online worship and offer guidance for future development
- To inform improved emotional and practical support for Church leaders
- To assess the development of new forms of Christian service and mission
- To show the social benefits that Churches and Church leaders bring to Scotland

We want to hear the experiences of all ministers, clergy and pastors during the pandemic, and give you an opportunity to influence the future direction of the Church in Scotland.

Please complete the research questionnaire at
<https://www.surveymonkey.co.uk/r/ACTS-COVID19>
by 20th November 2020

Thank you
